

LOGICDESIGN.LD@GMAIL.COM

One Point Solution from Design to Manufacturing.

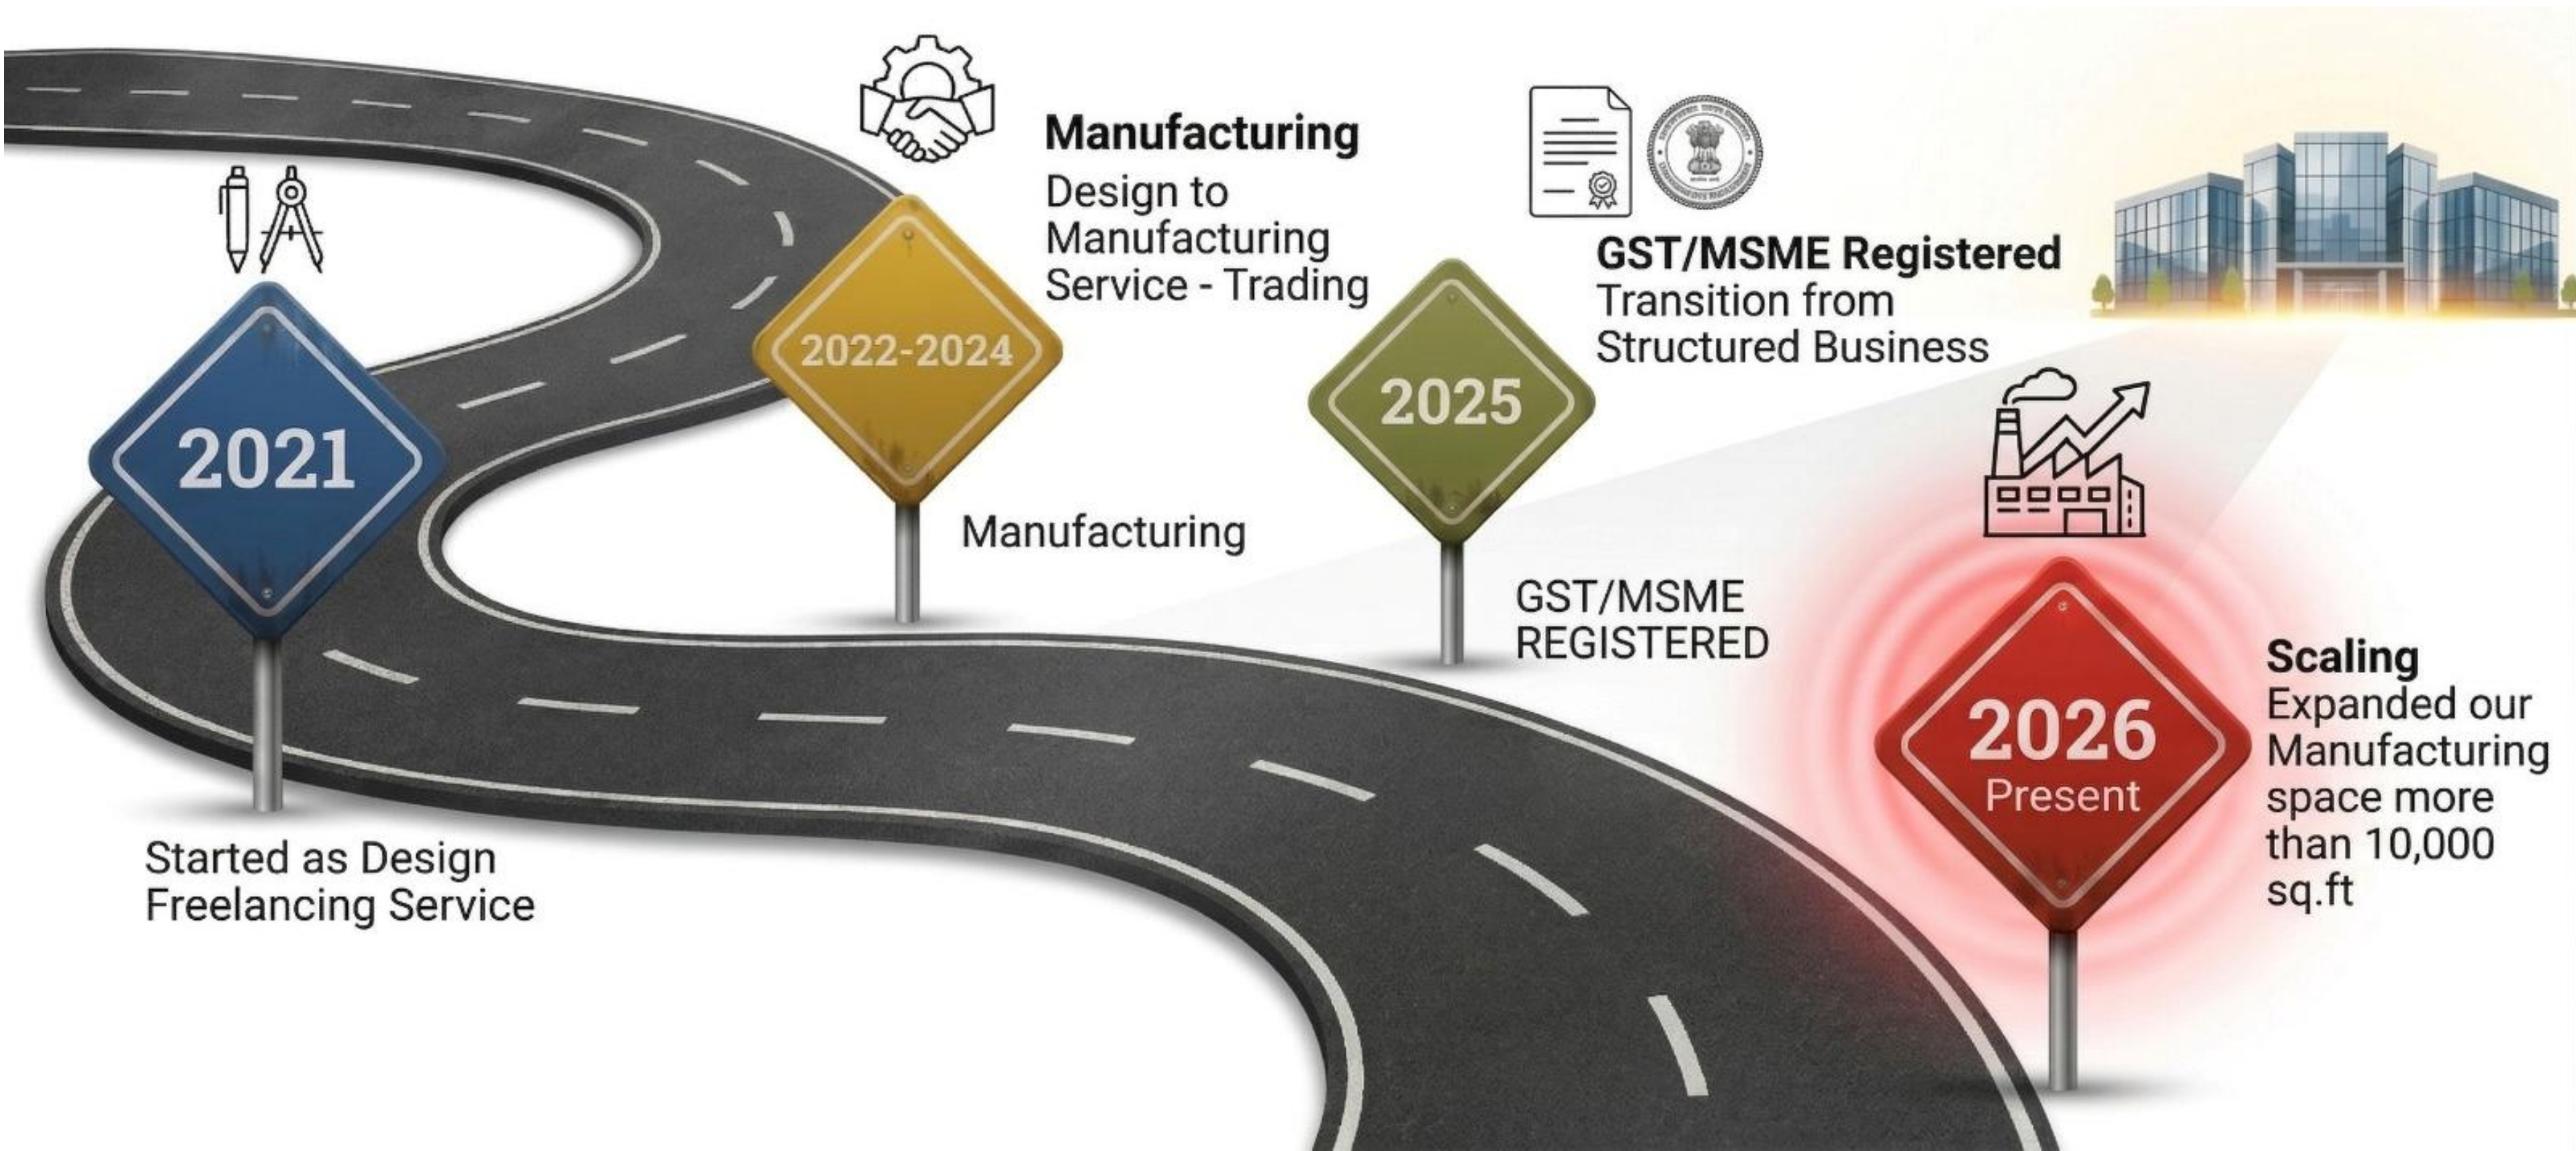

GST No : 33JNJPS9997D1Z1

ABOUT US

Logic Design Solution is a startup founded by G Sundharesh with expertise in supply chain packaging design and custom machinery. We specialize in creating innovative solutions that optimize packaging, improve efficiency, and design specialized machines tailored to your business needs. Our mission is to provide smarter, cost-effective solutions that drive operational success.

OUR ROADMAP

To empower brands through innovative design solutions that inspire, engage, and connect with audiences. We believe in the power of creativity to transform ideas into meaningful experiences, making design both functional and beautiful.

To be a leading force in shaping the future of design by fostering innovation, sustainability, and collaboration. We aim to create designs that not only drive business success but also make a lasting impact on culture and the environment.
